Special Session on

Information Hiding & Multimedia Security (IHMS)
In Conjunction with 7th International Conference on
INFORMATION ASSURANCE AND SECURITY
(IAS 2011)
Malacca, MALAYSIA
December 5–8, 2011

Call for Paper

For many years, information hiding research have become important in a number of application areas. Digital watermarking, steganography and cryptography conceal information or are used as core primitives in digital rights management. Steganalysis, cryptanalysis and forensics pose important challenges to users of information hiding applications. This special workshop is an opportunity for researchers to share their knowledge in information hiding and multimedia security areas. The session invites novel contributions/papers on research and practice in the following topics of interests but not limited to:

- Steganography and Steganalysis: techniques and attacks
- Watermarking: techniques, and attacks
- Cryptography: techniques and attacks
- Software Watermarking
- Novel Applications in Information Hiding
- Multimedia and Document Security
- Multimedia Forensics
- Digital Rights Management
- Intelligent Information Hiding

SUBMISSION GUIDELINES
All contributions should be original and not published elsewhere or intended to be published during the review period. The guidelines for paper format are available at the official IAS 2011 website: http://www.mirlabs.org/ias11.

Important Dates:
Deadline for paper submission: July, 1, 2011
Notification of acceptance/rejection: August 15, 2011
Deadline for camera-ready manuscript submission: October 10, 2011

Session Organizers:
SUBARIAH IBRAHIM
Information Assurance and Security Research Group
Faculty of Computer Science and Information Systems,
Universiti Teknologi Malaysia, Malaysia
